1. INTRODUCTION

This guide briefly describes how to begin using Nokia Content Copier.

The Nokia Content Copier consists of the following features:

- Enables the copying of data between two Nokia phones (described later in this document)
 - Phone book (names and numbers), Caller Groups
 - Profiles
 - Ease of use items (I e Any key answer)
 - Calendar
 - WAP settings, Messages, Advanced Functions etc. depending on the phone model used
- Sends back-up data on your Nokia phone to a PC, and then restores it to your phone
 - Phone book (names and numbers), Caller Groups
 - Profiles
 - Ease of use items (I e Any key answer)
 - Calendar
 - WAP settings, Messages, Advanced Functions etc. depending on the phone model used
- Erases data from your phone (only from the Nokia 6310i)

2. SYSTEM REQUIREMENTS

To install and run the Nokia Content Copier, you need:

- An Intel-compatible PC equipped with Windows 98/ME/ 2000/XP, Windows NT 4 with SP 5 or later (only cable connection)
- At least 40 MB of free disk space
- For connection between the Nokia 6310i and a PC you need a compatible infrared port/DLR-3P cable (Windows NT 4 only cable connection)

The Nokia Content Copier supports the following Nokia phones

Nokia 6250/Nokia 7110	Infrared connection/the DLR-3P serial cable
Nokia 5210/Nokia 6500/Nokia 6510/Nokia 8210/Nokia 8310/Nokia 8850/Nokia 8890	Infrared connection
Nokia 6210/Nokia 6310/Nokia 6310i	Infrared connection/the DLR-3P serial cable/Bluetooth

Note: Because the Nokia Connection Manager that comes with Nokia PC Suite 4.81 does not support DAU-9P cable anymore following Nokia phones are not supported anymore by the Nokia Content Copier: Nokia 5110/Nokia 5130/Nokia 6110/Nokia 6130/Nokia 6150

Note: In this guide, all references to personal computers (PC) are also applicable to laptop computers.

3. USING THE NOKIA CONTENT COPIER

- 1. Exit all Windows programs that could reserve the COM: or IrDA port
- 2. Start the Nokia Content Copier
- 3. Follow the instructions on the screen, and note the following:
 - Data can only be transferred *from* the Nokia phone models listed earlier in this document, and the *target* phone can only be the Nokia 6310i. This applies to all actions in the Nokia Content Copier.
 - Also note that screens that are shown below may be different from the screens you see depending on the phone model used for copying data from.

The process of copying data between two Nokia phones is briefly illustrated below:

🧏 Nokia Content Copier	×	More Information
Follow these step 1. Connect the	O O Connect Source Phone Follow these steps to select the phone from which you want to copy data: Connect the phone to the PC, using a suitable connection method. Wait until Nokia Content Copier detects the phone. Cick Next.	More Information Image: Content of the phone is switched on, and that it is in the network coverage area. • Make sure that the phone's user guide for information on how to connect the phone to a PC. • If Nokia Content Copier does not detect the phone, follow these steps: 1. Click Connection. Nokia Connection Manager opens. 2. In the Connection type box, click the connection type you are using. 3. Click Select.
Phone: Unkno	Connection	 Click DK to exit Nokia Connection Manager. Wait for a moment until Nokia Content Copier detects the phone.
